

## Congress Organization

World PM2018 is sponsored and organized by the China Powder Metallurgy Alliance (CPMA) with the support of TPMA, and in co-operation with APMA, EPMA, MPIF.

## Venue

World PM2018 will be held at China National Convention Center (CNCC), ideally located in the heart of the Olympic Green adjacent to the National Stadium (Bird Nest), the National Aquatics Center (Water Cube). The Center was served as the main press center and international broadcasting location during the 2008 Beijing Olympic Game.

CNCC complex consists of the Convention Center, CNCC Grand Hotel, InterContinental Hotel and two office buildings. More selected hotels will also be offered to delegates, most of which will be within walking distance of the Congress Center

It's only 30 minutes' drive to the airport and the

subway station is connected with CNCC's basement which enables convenient access to the city center, the airport, the Beijing Railway Station, and many tourist attractions such as Tian'anmen Square, Forbidden City or Summer Palace.

## Location

Beijing, Capital of China, is the location for World PM2018 Congress and Exhibition. Located at the north edge of the Northern China Plain, Beijing is an ancient city with a history of more than 3,000 years. It is a world-famous historical city that reflects the continuity of Chinese civilization and an international metropolis engaged in making itself a World City with Chinese characteristics. The city is renowned for its opulent palaces, temples, walls and gates, parks, gardens, tombs. Its art treasures and universities have made it the center of culture, art and education in China. It is also a very important global financial center.

Climatically, Beijing's four seasons cater to different interests of tourists. Autumn days are cool with clear sky and gentle breeze, making it the best season for tourists.

# WORLDPM2018

Sept. 16 - 20, 2018 • Beijing China

## First Announcement

Organized by:

[www.worldpm2018.com](http://www.worldpm2018.com)

### Organized by:

China Powder Metallurgy Alliance (CPMA)

### Supported by:

Taiwan Powders and Powder Metallurgy Association (TPMA)

Asian Powder Metallurgy Association (APMA)

European Powder Metallurgy Association (EPMA)

Metal Powder Metallurgy Federation (MPIF)

### World PM2018

The World PM2018 Exhibition will be a grand meeting for the worldwide communities in the PM industry to demonstrate the latest progress of technology. Particularly, a good opportunity will be offered to the international PM industry to get a direct overview of China's PM industry at the most important PM event in the world.

Over 800 presentations and posters are expected to highlight the development in Powder Metallurgy (PM) during the 4-day Congress. Moreover, the global

experts will also share the general review, market investigation, future opportunities and challenges of the PM industry.

A Call for Papers will be issued at the beginning of 2017 for authors to plan submitting papers or posters to the program.

### Why you should attend World PM2018 in Beijing

The Powder Metallurgy World Congress will be held in China for the first time and is therefore a valuable opportunity for the worldwide PM community to meet its suppliers, producers and end-users, and to interchange, discuss and discover the latest innovations, challenges and trends of PM industry. Especially, a platform will be provided for the face-to-face communication with customers from China which is now the largest manufacturing base in the world.

- Remarkable invited plenary presentations and

keynote papers on important topics.

- 4-day technical program including all aspects of PM, AM, porous materials, refractory metal, hard materials, magnets and functional materials, hot isostatic pressing (HIP), bio-medical materials and metal injection molding (MIM), etc.

- In-depth special interest seminars focusing on new technologies, developing trends and emerging markets.

- Forum on Chinese Manufacturing Plan 2025, PM industry of China and the expected contribution to world PM industry.

- Outstanding world PM exhibition – find out the latest achievement of the global PM industry, especially the cost-effective solutions from PM industry of China.

- Awards luncheon – felicitate the design excellence, outstanding papers, etc.

- Plant tours – some representative relevant factories and companies.
